About Us

NETWORK WORLD **Fumo's Exclusive Distributor**

NetworkWorld is a leading company in the field of distributing Data Communication & Networking Components in Egypt, Middle East, and North Africa.

Since established in 2004, NetworkWorld takes the commitment to meet the needs of its clients from different business fields, offering them the lowest possible rates with the highest quality along with the best payment terms.

In order to meet with this commitment, NetworkWorld always keeps a high volume stock of high quality brands from different origins. Therefore From the very beginning the major target was, to stock huge quantities on a level of quality matching highest demands, enabling us to provide and satisfy our clients with both bulk and urgent supplies.

Our product portfolio includes the four essential components of structured cabling; Connectivity, Routing, Management and Identification. And to meet our client's needs, we offer high quality brands from different origins, for even same product category.

We have Panduit, Fumo and Legrand as US, Italy and France brands for structured cabling components, Superior Tec, Panduit, and Superior Essex for data cables.

And finally, for telecommunication cabinets, we have Estap, MultiTec & Superior Tec.
